

# IS YOUR DATA SAFE FROM HACKER?

We can help

YOUR TRUSTED IT PARTNER  
since 2002

[WWW.UCLOUD.SG](http://WWW.UCLOUD.SG)

# ENTERPRISE FILE SYNC IS A SINGLE TOOL FOR USING, MANAGING AND PROTECTING YOUR DATA.

Key benefits of Enterprise File Sync:

- \* **File backup. Real-time (not scheduled) backup** for user files, with simple recovery
- \* **File sharing and collaboration.** Sync and share files internally and externally using virtually any device, while maintaining control over file access permissions
- \* **Admin control and security.** Keep your data safe and protected while consolidating two separate services for simpler management.
- \* **Business continuity and disaster recovery.** Enterprise File Sync keeps operations up and running across a number of scenarios, from stolen devices to ransomware outbreaks
- \* **A Worry-Free Experience.** Office hours phone support, a 99.999% uptime SLA and onboarding assistance.

# ENTERPRISE FILE SYNC IS: FILE BACKUP AND SYNC AND SHARING IN ONE INTEGRATED SERVICE

## Key Benefits of Enterprise File Sync:

- A complete file management solution for storing, backing up, sharing and collaborating on files
- Easy for employees – works on Mac, PC, iOS, Android and the web
- Full administrative control over users, files, devices, and sharing
- Helps reduce downtime from lost devices, hardware failure, ransomware attacks and other types of data loss events
